CHICAGO GRAIN.
CHICAGO, June 25.—(Rather general commission house selling weighed down prices in the corn market today. Bearish sentiment was based largely on apparent likelihood of continued liberal receipts together with absence of any urgent shipping demand here. Shorts did most of the buying. Initial quotations, which varied from unchanged figures to 1 1/2c lower, with July \$1.15 1/2 to 1.16 1/2, and September \$1.67 to 1.67 1/2, were followed by moderate rallies and then by a decided setback all around.
Oats were weak with corn. After opening unchanged to 3/4c lower, including September at 84 1/2 to 84 3/4c, the market tightened somewhat, but soon sagged lower than before.
Declines in the values of hogs and grain made provisions heavy. Support was lacking.

New Record for Extreme Dullness in Morning Session on Wall Street

NEW YORK, June 25.—The usual irregular price changes were recorded by leading issues at the outset of today's stock market session. Gains, outnumbered recessions, however, short covering being again induced by more circumstantial rumors of gold exports. Crucible Steel and Mexican Petroleum opened at advances of a point with fractional gains for several of the food, chemical and motor specialties. Hide and Leather preferred lost one point and transcontinental rails, Pullman, Royal Dutch and Middle States Oil reflected pressure.

Prices steadied before noon although a new record for extreme dullness was established during the morning. Barely 70,000 shares changed hands in the first hour. The only stock to show marked heaviness was Inspiration Copper, which continued to be sold on yesterday's dividend reduction. Additions to early advances embraced North American, which rose three points, Baldwin and American Locomotives, Sloss-Sheffield Steel and Pan-American and Phillips Petroleum. Rails, which included many of the high grade issues, were again ignored. Indications of another money flurry were seen in the nine per cent opening rate for call loans.

Call money's rate to 1 1/2 per cent at midday, occasioned little surprise and caused no effect except among copper shares which continued to decline. Low priced rails, especially St. Paul preferred, Missouri Pacific preferred, Western Pacific, Rock Island and Minneapolis and St. Louis developed moderate activity at gains of 1 to 1 1/2 points.
